So to encourage you, we provide maximal service at minimal rate to individuals wanting to have WEB presence

## - Free Decision Making Advices -

When you want to have WEB presence for your small to medium size business, you may want to know the answers of some of the following -

Do I need to use client and/or server machines?

Do I need to have Internet Server or can I have an Independent service provider?

What is the recurring and non-recurring costs?  
How much I can depend on

the alternative services?

Can I safely do business transactions on the WEB?

Can I advertize my products and services to the wider world of customer base?

What kind of Hardware, Software and Technical commitment I have to make to run my WEB presence?

If I hire a cosulting company like Programmers So-

ciety, how much I would be spending in 6 months, in a year, and in 5 years?

What I can provide, and what a consulting company should provide to enhance our business presence on the WEB?

Above and many more questions will be answered if you hired Programmers Society to evaluate and implement your WEB presence.
